Government fixed prices of coal to the public will be reduced soon as a result of an agreement reached between the Fuel and Railroad Administrations, under which the railroads will pay more for coal than they have paid in the past. The amount of the reduction is to be worked out at further conferences between heads of the two administrations. The attitude of the Railroad Administrations is understood to be that the maximum should be in the neighborhood of \$2.25 a ton, and that the figure might be lower. This is 35 or 40 cents below the present general average of Government prices for bituminous coal at the mines.

GUN ACCIDENT NEAR HOWELL

SMALL BOY DISCHARGED GUN AND IS KNOCKED UNCONSCIOUS FOR SHORT TIME.

Friday afternoon the seven year old son of Mr. John R. Boyd, of the Howell neighborhood, got hold of a double barrel shot gun which had been set on the porch. No one knew the gun was loaded but somebody had carelessly left a shell in one barrel. Boy like, the little fellow cocked the hammer and pulled the trigger and the load exploded.

The recoil of the gun caused the hammer to strike the child's upper lip, cutting it badly and knocking him unconscious. The wound is not serious though a very painful one. A colored woman was coming into the yard at the front gate at the time and the load missed her several feet but killed a chicken which happened to be in the yard at the time. The boy was doing alright last night.

BOTH SIDES MAKE RAIDS

(By International News Service.) London, May 24.—"Under a heavy cover of artillery bombardment," says to-night's official report, "the enemy carried out a raid last night in the neighborhood of Bucquoy, half way between Arras and Albert. A few of our men are missing. Prisoners were brought in on different parts of the front by British and French patrols. There is nothing to report."

REJECTS HUN PROPAGANDA

AMERICAN UNITARIAN ASSOCIATION PLEDGES SUPPORT TO GOVERNMENT.

Boston, Mass., May 22.—The American Unitarian Association rejected a resolution calling for recognition of "the spirit of Christian brotherhood" in a declaration adopted by the clergymen in Berlin, and pledged support to the government.—Louisville Post.

You see intelligent, patriotic American citizens, regardless of their christian orthodoxy, are beginning to recognize that the untimely discussion of so called "christian brotherhood" and the misapplication of the Sermon on the Mount, are in fact pro-German propaganda.

F. M. STITES.

TEN CENTS A TON.

R. C. WOMEN GO OVER TOP

CLOSE TWO-DAY DRIVE WITH MORE THAN \$3,000. MORE ROUNDING UP TO-DAY.

There is hardly a doubt now that Hopkinsville will by Monday night, reach her half of the \$26,000 goal set for the entire county. Last night the women of the city had raised \$3,148.02 with another hundred or two to be reported today. This is a great showing for the patriotic ladies of Hopkinsville.

Chairman Brethitt reported last night that between \$8,000 and \$9,000 had been reported by the men. This added to the amount the women have raised brings the amount for the city to nearly \$12,000, a mark so near the goal that efforts will not cease till the \$13,000 goal is attained.

If the county outside the city of Hopkinsville will only do as well as the city we will then have just cause to believe that our people have come to a fuller realization and understanding of the Red Cross, just now the greatest organization of mercy in the world.

Mr. R. E. Cooper and his committee of workers will make the drive in the country today and Monday.

The colored people are making progress and expect to further increase their amount today which is their Tag Day. The Rex Theatre will give a benefit day Monday for the colored people part of the receipts to go to their Red Cross funds. The play will be "Over There."

THE BRITISH AUXILIARY CRUISER MOT DAVIS, TORPEDOED IN THE BRITISH CHANNEL LOADED WITH SOLDIERS BUT ONLY SIX LIVES ARE LOST.

(By International News Service.) London, May 24.—The British auxiliary cruiser, Mat Davis, carrying American troops, was torpedoed and sunk early yesterday morning in the English channel. British destroyers did remarkably effective work rescuing survivors. At last accounts the deaths were estimated at only six. Many were injured, however. No submarine was seen. No panic resulted. The Americans distinguished themselves by remarkably cool conduct. Aroused by the explosion they lined up on deck scantily dressed and as

the vessel settled deeper and deeper, the Americans debarked all singing. The sea was rough. Immediately after the explosion escorting destroyers closed upon the torpedoed vessel top speed, forming an encircling screen. The discipline displayed by the American troops is the main topic of comment by all those who witnessed the scene. Face to face with death, they behaved as if lining up for review. As the survivors, hotless and shocked, many of them with hardly any clothing on were approaching the shore motor buses met the destroyers bringing clothing supplies.

IRISH PLOT FAR REACHING

DETAILS ARE COMING OUT OF THE HUN PLAN TO FOMENT REBELLION.

(By International News Service.) London, May 24.—A German submarine cruised off the west coast of Ireland on a certain date during last month, ready to unload "deletet" for the new Irish rebellion. This was revealed in an official statement issued tonight. The German-Irish plot was planned to be materialized simultaneously with a successful German offensive on the west, the object being to drain England of armed forces for the front in France while at the same time compelling her to send large contingents of troops to Ireland to combat an island-wide rebellion. The plot's thread is traceable back to the days immediately following the Dublin Easter rebellion. The arch plotter man was called by the Sinn Feiners the "Irish Revolution Director in America." His identity was unrevealed, many Irish, Americans and Germans are involved.

German troops are reported to be moving in the direction of Moscow.

HUGE WAR BILL

(By International News Service.) Washington, May 24.—Secretary McAdoo today won President Wilson's support for the war revenue bill, which measure will be prepared at once. The bill will lay a heavy hand on profiteering and will raise \$7,000,000,000 or \$8,000,000,000, more than twice as much even as then the considered mammoth bill of last session.

NEARING GOAL

(By International News Service.) Washington, May 24.—In the fifth day of the Red Cross drive a total of \$86,689,640 of the needed \$100,000,000 has been raised.

THE MOON'S HALO.

Did you see the moon last night at 11 o'clock? Most people did not, on account of the lateness of the hour, but the Kentuckian's eyes are open long after that hour and what it does not see Night Chief Hawkins does.

Last night the moon was encircled by six rings of red, white and blue—two of each color and alternating. This story will be vouched for by all who were up as late as 11:30 and at all observant. Just what the halo signifies we will leave for some scientist or prophet to explain.
